WHAT IS BULLET LINER?

Bullet Liner is a permanent, spray-on polyurea coating system for truck beds and other high-contact vehicle surfaces. Expertly applied by highly trained technicians, Bullet Liner is the toughest protection in the business—offering high caliber protection for the life of your fleet vehicles.

- High tensile strength material provides a superior, permanent layer of protection
- Protects from impacts and abrasions
- Won't flake, bubble or crack, no matter what
- Trouble and maintenance free

PROTECT YOUR INVESTMENT WITH BULLET LINER.

Protect your vehicles

- Keeps vehicles from being sidelined due to exterior damage
- Helps minimize costly repairs and vehicle downtime
- Protects surfaces from many corrosive/hazardous materials, lengthening vehicle functionality and minimizing downtime of equipment
- Extends lifespan and improves the resale value of equipment and vehicles

Protect equipment, cargo, and workers

- Available non-slip surface helps keep cargo from shifting and guards vehicles and cargo from costly damage
- Increases footing during loading and unloading and helps prevent slipping and injury

Protect and enhance your image

- Advanced color matching technology allows any company, department or divisional color scheme to be applied.
- With available UV protection, Bullet Liner is fade resistant, retains gloss and new look.

SUPPORTIVE DEALER NETWORK

Our dealers understand the cost of downtime and strive to make doing business with us as seamless as possible to put your protected vehicles on the road faster – and for longer.

- Highly trained applicators
- Multiple convenient locations
- Quick turn-around times

THE BULLET LINER BOTTOM LINE

- ✓ Toughest protection in the business.
- ✓ Protects your investment for the life of the vehicle.
- ✓ Highly trained installers get it done right—and fast.
